Turning Plans into Projects
by Chuck Potucek, City Manager

As a citizen it can be frustrating to see plans made to improve the community but then wait an uncertain time for them to be carried out. Sometimes the wheels of government are slow, with the fruits of today’s plans not ripening until years later.

That can be frustrating for us working in government too, especially in tough years when projects may need to be put on hold because of constrained resources. But then there are times like this when it seems like so much of what has been planned is clicking into place as long-sought projects become reality.

That’s certainly the case in the West End, where we celebrated the completion of streetscape improvements along Fry Boulevard at West Fest in April. It was wonderful to see so many people enjoying an environment changed to be safer and more inviting for pedestrians and businesses alike. We received great feedback from community members who got to see improvements that have been in the works for decades.

Some residents will remember the public open houses for the streetscape design in 2019 and 2020, others will remember meetings, conversations, and plans that date back much further. We appreciate the many residents, commission members, and council members who helped form the vision for a walkable, bikeable, downtown environment in the West End.

We are looking forward to extending the streetscape improvements on North Garden Avenue. That project is now in the design phase, and construction is expected to start in 2023. Once North Garden improvements are completed, the next phase will expand the improvements further east along Fry Boulevard.

Now under construction, the extension of Avenida Escuela north has a long history too, dating back to a development agreement with Walmart in 2006 when the company agreed to pay for a portion of the project. An economic downturn slowed many projects between then and now. Yet we’re able to move forward with this one at a most opportune time.

In the feature story of this newsletter, you will learn how this road extension complements work the City has been doing to enhance sports tourism in Sierra Vista and how more improvements are on the way. These improvements make major headway in implementing our Citywide Parks Master Plan, which will enhance quality of life for residents while also drawing in new dollars to our community.

We’re in a good position to make these strides because we tightened our belt when times were tough, have been cautious to not overspend when times are good, and pursue grant opportunities aggressively. That has enabled the City to maintain exceptional bond ratings and keep its debt service low.

None of this would be possible without the dedicated people who work for the City of Sierra Vista and the support of the people who live here. These days, it seems like the wheels of your local government are turning at a fever pitch. It’s the work of our extraordinary staff and support of our community that keep us rolling forward every day.

Road Extension & Energy Initiative Boost Sports Tourism Efforts

The project comes at an opportune time as the City begins work on the second phase of an energy initiative with Schneider Electric after seeing significant benefits from improvements completed in its first phase in 2018. Improvements like tournament-ready artificial turf soccer fields and efficient LED lights for the City’s sports fields, were identified to help local sports organizations attract and host tournaments in Sierra Vista.

Phase I of the energy initiative with Schneider Electric resulted in five artificial turf soccer fields at Cyr Center Park and the Domingo Paiz Sports Complex, while upgrading sports field lighting at 17 fields and courts, among numerous improvements. It facilitated the attraction of 18 tournaments in 2019–2021, bringing in about 11,490 visitors and benefiting the community to the tune of about $3.3 million.

With the extension of Avenida Escuela now underway and major sports facility improvements coming soon, the City’s sports tourism efforts continue to gain momentum.

The extension of Avenida Escuela north has been planned for many years, dating back to when a development agreement with Walmart was negotiated and approved in 2006. In that agreement, Walmart agreed to pay for 50 percent of the culvert and bridge required to link Avenida Escuela to the City sports complexes along Tacoma Drive and Las Brisas Way.

That culvert is now taking shape and the extension of Avenida Escuela is expected to be completed in August. Long planned, this project became a near-term focus as sports tourism was identified as an economic development opportunity and a strategic priority of the City Council in recent years. There was a strong desire from local sports organizations to host tournaments but they needed better fields and more support to do so.

Once extended, Avenida Escuela will link the City’s sports facilities along Tacoma Drive with the soon-to-be-renovated Veterans Memorial Park Sports Complex. This will enable the City to better facilitate large events and sports tournaments, to include having multiple activities running at one time.

“It’s a big boost to the City’s ongoing efforts to partner with local sports organizations to attract new people and dollars to the community through tournaments,” Assistant City Manager Victoria Yarbrough says. “We also hope it will help spur private development in the area.”
This also supports local sports teams, who have gotten the privilege to experience home-field advantage for the first time and can practice and play on fields that offer safe, competitive conditions year-round.

“Our competitive teams are so grateful because when we go play now, our speed of play is way better, because these fields are fast,” Coronado Athletic Club Co-Owner Maria Maxwell says. “I’m really happy to be part of this community. When I came here in 2010, I never expected sports to be what they are right now in this town.”

Now the City endeavors to build on that momentum, with work starting on major improvements at the Veterans Memorial Park Sports Complex in the coming months.

Phase II Energy Initiative Moves Forward

With funding recently authorized by the City Council, the second phase of the City’s energy initiative with Schneider Electric will be getting underway soon.

Just like the first phase, this project will result in significant energy and operational savings, which will help recoup its cost over time. It tackles major City needs and numerous strategic objectives set by the City Council without requiring any additional tax burden on local citizens. The project will be funded through up to $25 million in Municipal Facility Revenue Bonds with the debt service repaid by a portion of the City’s sales tax collection reserved for capital improvements.

The project is also funded in part by a Land Water Conservation Fund grant of $1.5 million, which will assist with water conservation improvements at the Veterans Memorial Park Sports Complex.

The improvements will kickstart implementation of the Citywide Parks Master Plan and initiate redevelopment of the Veterans Memorial Park Sports Complex to include replacing the old Apache Middle School football field and track. The new field and track will be a modernized facility with artificial turf and efficient LED lights suitable for both soccer and football. It will also feature bleacher seating for 2,500 people. Both the track and field will have open hours for public use when not reserved.

Other sports-related improvements include the installation of two new lighted basketball courts, lights at the tennis courts and new sand volleyball courts, plus the inversion and improvement of the softball field. ADA accessible pathways between parking and facilities will also be constructed.

This initiative will advance Sierra Vista’s commitment to responsible energy and water use with the installation of a Citywide smart irrigation system, well improvements and expanded capacity, significant renovations at The Cove, solar covered parking spaces, numerous facility renovations and building envelope upgrades, the installation of LED lighting at multiple facilities, the replacement of runway lights and upgraded lighting controls at the Sierra Vista Municipal Airport, the addition of EV charging stations in public parking areas, and more.

The project is estimated to generate more than $37 million in savings and $101 million in economic impact over its 25-year lifecycle. It advances numerous strategic priorities set by the City Council, to include a goal to generate an additional $3 million in sports tourism over the next two years. It will also save more than six million gallons of water each year.

“This energy initiative will reinvigorate old sports facilities and create quality new ones for our community to enjoy, while enhancing Sierra Vista’s reputation as a destination for competitive play,” Parks, Recreation, & Library Director Laura Wilson says.

Additional information about the phase II energy initiative with Schneider Electric can be found in the presentation made to the City Council by accessing the April 12 City Council work session folder at docserve.SierraVistaAZ.gov.
Five Ways to be Wildfire Safe

WITH SEVERAL SIGNIFICANT WILDFIRES sparking in our area already, it is clear conditions are ripe for dried out fuels to catch easily and for fires to spread quickly. Late spring and early summer often bring high winds and dry conditions to our area. While wildfires can occur just about any time of year, it’s especially dangerous in the weeks and months before the monsoon arrives to quench the desert’s thirst. Here’s what you can do to help us all stay safe from dangerous wildfires.

Watch the Weather
The National Weather Service issues Red Flag Warnings on days that pose particularly high fire danger due to high winds and dry conditions. Residents are urged to use extreme caution on these days and consider postponing any outdoor activities that could spark a fire like barbecuing, target shooting, or using heavy equipment. Residents should never discard cigarette butts outdoors and in these conditions it is extremely reckless.

Protect Your Property
Create a defensible area around you home by clearing away any vegetation and flammable materials, cleaning out gutters, and pruning low-hanging tree branches. Open burns are not allowed in the City of Sierra Vista but the City offers free curbside green waste pickups for its refuse customers.

Just bag, bundle, box, or place your green waste in a barrel and set it by the curb before 7:00 a.m. on your pickup date. Pickups must be scheduled by 5:00 p.m. the Monday prior. They can be scheduled online at www.SierraVistaAZ.gov or by calling (520) 458-7530.

Be Ready Before it’s Time to Go
Cochise County follows the nationwide Ready, Set, Go! Program. Now is the time to be ready not just by protecting your property. It’s important to have a family evacuation plan in place with important documents and supplies prepared in case of evacuation. This includes communicating the plan with children in the household and ensuring you have adequate pet carriers and food at the ready.

Sign up for Emergency Alerts
When a wildfire is threatening your area, follow the local news and alerts put out by local governments to get the latest information. The best way to ensure you do not miss an emergency notification is to sign up for emergency alerts from Cochise County. Based on your preference, you can receive alerts via text, email, pager, or voice call. Sign up for Cochise County alerts at public.alertsense.com/signup/?regionid=1341.

Heed Restrictions
Please heed local restrictions against open burning in Sierra Vista and any restrictions that may in place at outdoor recreational facilities and campgrounds.

Join SVPD’s Citizen Police Academy
Area adults can now apply for the Sierra Vista Police Department Citizen Police Academy, which is planned to start in August. Applications are due by Friday, June 10, and the class size is capped at the first 25 students who qualify. There is no charge to participate. Learn more by searching for “Citizen Police Academy” at www.SierraVistaAZ.gov or by calling SVPD Resource Specialist Lilly Perry at (520) 452-7500.

Forgo Private Fireworks
Thanks to the Sierra Vista Rotary Club, our community enjoys an extraordinary public fireworks show on the Fourth of July. We urge residents to enjoy the public display, instead of sparking their own fireworks. The use of fireworks in the City limits is strictly regulated and only certain types of consumer fireworks are legal in Arizona. Bottle rockets, sky rockets, roman candles, helicopters, and jumping jacks are common examples of fireworks that remain illegal statewide. Permitted fireworks include cylindrical and cone fountains, ground spinners, illuminating torches, and other types designed to be handheld or to remain on the ground.

In Sierra Vista fireworks can only be used on private property, with the permission of the property owner. That means any public areas, to include parks, schools, streets, and public rights-of-way, are off limits for fireworks. It’s also illegal for anyone under 16 to purchase fireworks and for anyone under 18 to use them unless supervised by an adult.
Celebrate National Park & Recreation Month

This July, the City of Sierra Vista Parks, Recreation, and Library Department will be celebrating the parks maintenance workers who faithfully serve the community year-round!

Divisions throughout the department will host events recognizing these individuals and the benefits of local parks and recreation to the physical and economic wellbeing of the community. Join us for fun, educational programming for people of all ages, and enjoy our extraordinary spaces and uncommon recreation!

Some events are still in the works, so be sure to follow the “City of Sierra Vista Parks, Recreation, and Special Events” and the “City of Sierra Vista Library, Recreation, and Cultural Services” Facebook pages for the latest event news! Look for the Parks & Recreation icon 🏢 to find related events in this newsletter.

Offer Input to Shape Future Roadrunner Park

The City of Sierra Vista recently acquired land from the Sierra Vista Unified School District to build a new community park on the southern end of town.

Named Roadrunner Park, this 28-acre site is bordered to the north by Garden Canyon Linear Park, to the west by St. Andrews Drive, to the south by Canyon De Flores, and to the east by Camino Bella Rosa. Residents are invited to check out the space and offer input in person on Monday, June 13, from 5 to 7 p.m. and on Saturday, June 25, from 9 to 11 a.m.

Residents can submit input on future development of the park online at engage.sierravistaaz.gov starting June 6.

Museum Hosts National Traveling Exhibit

Opulent Oceans: Extraordinary Scientific Illustrations

This 2D traveling exhibition from the American Museum of Natural History highlights the integral role scientific illustration has played in undersea exploration and discovery.

Beginning some 400 years ago, European voyages of discovery began mapping the globe and documenting newly-acquired knowledge of ocean life in illustrated books, showcasing images that communicate the anatomy, life cycles, habits — and sheer beauty — of an astonishing diversity of newfound marine species. Opulent Oceans features 46 exquisite, large-format reproductions of notable historic illustrations from 33 rare and beautifully illustrated scientific works from the American Museum of Natural History Library’s Rare Book collection.

In addition to displaying captivating images, the exhibition touches on the work of renowned artists, scientific researchers, and pioneering explorers including Charles Darwin, Ernst Haeckel, Mark Catesby, Johannes Müller, and Pierre Belon.

Southwestern Rock Art With Allen Dart

Ancient Native American petroglyphs (symbols carved on rocks) and pictographs (rock paintings) are claimed by some to be forms of writing for which meanings are known. But are such claims supported by archaeology or by Native Americans? Archaeologist Allen Dart illustrates how petroglyph and pictograph styles changed through time and over different parts of the U.S. Southwest both before and after non-Indian peoples entered the region. He will also discuss how even the same rock art symbol may be interpreted differently from popular, scientific, and modern Native American perspectives.

Sparks provides opportunities for kids entering first through sixth grades to have fun in a safe environment this summer. It’s a group-based recreation program featuring on-site activities such as arts and crafts, games, and sports for a safe, fun-filled summer. For children enrolled in grades 1 through 6 for school year 2022–2023. Times and fees vary.

No need to miss out on City of Sierra Vista summer aquatics or sports offerings. If your child needs to attend the Summer Sparks Program, but also wants to do swim lessons or sports camps, they do not have to miss out! We will provide transportation to participate in any of the City of Sierra Vista summer aquatics or sports programs while your child is attending Sparks. Provide program information to us at the time of registration and we will handle the rest.

Monday – Friday | May 31 – July 29 | Sports Division | 3401 E. Fry Blvd.
*No programs on Memorial Day, Monday, May 30; Juneteenth (observed), Monday, June 20; and Independence Day, Monday, July 4.
